Senior Solution Architect, Multi-Cloud & AI/ML Expert and Principal Engineer
Adaptable & Decisive Leader Driving Cloud Architecture & Digital Transformation for Enterprises

Senior Solutions Architect with over 20 years of experience leading cloud and digital transformations for enterprises across industries, from FTSE 100 companies to start-ups. Expert in aligning business strategy with technical execution to drive impactful outcomes. Skilled in multi-cloud and cloud-native architectures, cloud migration, legacy system re-architecture, AI/ML, cybersecurity, and SaaS solutions. Proven success in driving innovation, optimising operations, securing stakeholder buy-in, and fostering growth. Passionate about mentoring teams, developing future leaders, and advancing solution architecture best practices. Adept at designing secure, scalable, and reliable solutions, leading architectural design sessions, pilots, and implementation projects to maximise business value. to continuously enhance

- ★ Led 5 TOGAF enterprise architecture initiatives,
- ★ Designed and implemented 7 data pipelines.
- ★ Led 15 cloud adoption strategies.
- ★ Architected 15 secure Landing Zones
- ★ Optimised 25 application workloads
- ★ Designed 25 DevOps pipelines.
- ★ Enhanced storage performance for 35 workloads.
- ★ Managed 90 infrastructure workloads.
- ★ Modernised 20 legacy systems to MACH platforms.
- ★ Developed 5 RAG solutions
- ★ Built 15 efficient MLOps pipelines
- ★ Strengthened 35 cybersecurity frameworks
- ★ Designed and deployed 4 ML recommendation engines

CAREER HIGHLIGHTS

- **Offers 20 years of proven experience leading successful digital transformations.** Spearheaded initiatives in infrastructure modernisation, application modernisation, data modernisation, cloud-native solutions, analytics, and AI/ML, driving significant business value.
- **Over 20 years of experience as a driving force behind high-impact solution architecture and multi-cloud initiatives.** Delivered solutions for B2B, B2C, B2B2C, C2G, and G2G brands across diverse industries like financial services, media, retail, e-governance, BFSI, Education, IoT, and telecom.
- **Architected and led the successful migration of 30+ .NET web applications from a legacy stack to a polycloud and multi-cloud environment (OCI, GCP, AWS, AZURE).** This resulted in a significant reduction in incidents and improved performance for a platform processing 80% of Thomson Reuters' revenue.
- **Led a \$290M greenfield project, consolidating 245+ platforms (e-commerce, support, sales) into a unified, multi- cloud digital commerce & customer success solution.** Streamlined order-to-cash & support for a frictionless customer journey.
- **Assembled and led a global team of 30+ technical architects specialising in AEM, Salesforce, SAP, Boomi, Kubernetes, and Apigee.** Fostered a culture of innovation and excellence to deliver high-impact solutions.
- **Pioneered retrieval augmentation for 3+ Thomson Reuters products using a cutting-edge stack (LlamaIndex, Azure Cognitive Search, Azure Kubernetes Service, Azure OpenAI Service).** This solution significantly enhanced information retrieval capabilities.
- **Proven track record of aligning multi-cloud and hybrid cloud strategies with organisational objectives, delivering complex pre-sales support, and building strong client relationships.** Supported 50+ startups, SMBs and 20 Fortune 500 clients, achieving a 40% revenue increase and a 30% cost reduction for clients. Conducted 50+ cloud-native technical workshops, achieving a 95% client satisfaction rate.

KEY AREAS OF EXPERTISE

- **Cloud Platforms:** AWS, Microsoft Azure, Google Cloud Platform, Oracle Cloud Infrastructure
- **Programming Languages:** C#, Java, C++, JavaScript, Python, Golang, Groovy
- **Cloud Native Technologies:** Kubernetes, Docker, Istio, Envoy, Prometheus, Grafana, Fluentd, Jaeger, OpenTracing, OpenCensus, Linkerd, Spinnaker, Helm, ArgoCD, Tekton, Knative, Kubeless, OpenFaaS
- **Multi-Cloud Management:** CloudEndure, CloudHealth, CloudCheckr, Turbonomic, Scalr, RightScale, VMware vRealize Automation, Terraform, Kubernetes
- **DevOps Tools:** Jenkins, GitLab, Terraform, Ansible, Docker, Kubernetes
- **Version Control:** Git, GitHub, Bitbucket **Operating Systems:** Windows, macOS, Linux
- **Infrastructure as Code:** Terraform, Google Cloud Deployment Manager
- **CI/CD:** Jenkins, GitLab CI/CD, Cloud Build **Configuration Management:** Ansible, Puppet, Chef
- **Monitoring and Logging:** Stackdriver, Prometheus, ELK Stack, Datadog, Splunk, OpenTracing, Chef InSpec
- **Messaging / Event-Driven Enterprises:** IBM MQ, Solace, Apache Kafka, ActiveMQ, MQSeries, Oracle AQ
- **Software Development Methods:** Agile (Scrum, Kanban), Lean, Test-Driven (XP), Model-Driven (MDD), Feature- Driven (FDD), Rational Unified Process (RUP)
- **AI/ML:** ALL-E API, DeepArt API, TextGPT API, AI Dungeon API, Amazon Rekognition API, Vertex AI
- **API Design and Management:** Apigee, Auth0, Amazon API Gateway, Azure API Management, API Platform, and Apiray.

- ★ Enterprise-grade cloud strategy (TOGAF 10, cloud adoption frameworks)
- ★ Multi-cloud architecture (AWS, Azure, GCP, OCI)
- ★ Cloud adoption, migration, and optimisation
- ★ Security, compliance, and governance
- ★ Well-Architected and Cloud Adoption Frameworks
- ★ Automation & DevOps (IaC, CI/CD)
- ★ Hybrid & multi-cloud networking
- ★ Performance optimisation and cost management
- ★ Cloud-native and legacy integration

- ★ Strong communication and presentation skills
- ★ Leadership and team mentoring
- ★ Problem-solving and critical thinking
- ★ Stakeholder management and negotiation
- ★ Cross-functional collaboration
- ★ Adaptability to emerging technologies
- ★ Strategic decision-making
- ★ Effective time management and prioritisation
- ★ Conflict resolution and relationship building
- ★ Mastering the ability to handle hidden requirements

CAREER TRAJECTORY

Thomson Reuters / Tata Consultancy Services • London, UK.

May 2019 - Present

Enterprise Architect / Solution Architect, *CoCounsel AI Assistant*: One Platform, One Experience and One AI Assistant

- CoCounsel, the world's first AI-powered legal assistant, seamlessly combines an AI Assistant and Skills to empower attorneys. This revolutionary tool dramatically reduces the time required for legal tasks from weeks to minutes.
- Spearheaded CoCounsel integration for Thomson Reuters, a next-gen AI legal assistant, into core workflows (Westlaw, HighQ, Practical Law).
- 3x Faster legal document processing, 35% increase in information retrieval accuracy, and sub-2-second average response time for CoCounsel.

Cloud Platforms: AWS (Lambda | SageMaker | Aurora Serverless PostgreSQL | S3 | API Gateway) | AWS Document DB
GCP (GKE | Vertex AI - Google Gemini)
AI/ML Models: OpenAI GPT-4 | Google Vertex AI (Gemini) | RAG (Retrieval-Augmented Generation)
File Management: Mercury (DMS) | Textractor
Container Orchestration: Kubernetes (EKS - AWS | GKE - GCP)
Monitoring: Datadog (Logs | Metrics)
Networking and Security: Cloudflare | AWS WAF | AWS Secrets Manager | AWS KMS
Microservices: Basenji | Themis | Delphi
Vector Embeddings: SageMaker LexLM Model | Aurora Serverless

Solution Architect, *Enterprise Data Lake / Data Platform*

- Designed and implemented a scalable Enterprise Data Lake (EDL) architecture, enabling 50% faster data processing and improving query performance by 40%.
- Developed a **self-service data ingestion platform**, reducing onboarding time from **days to minutes** by automating schema creation, data uploads, and approval workflows, leading to a **60% reduction in manual intervention**.
- Supported batch and streaming ingestion, supporting **100+ data sources** and ensuring a **99.9% data availability SLA** through robust replication and disaster recovery strategy.

CloudData Ingestion & Integration: Fivetran | Informatica | AWS S3 | SFTP | Kafka | APIs | Cloud Databases | On-Prem Databases | Direct Data Extraction
Storage & Data Management: BigQuery | Snowflake | Google Cloud Platform (GCP) | AWS TR-Corporates | Data Mesh | Data Hub | Google Storage | Amazon Managed Streaming for Kafka
Data Processing & Transformation: dbt | Cloud Composer (Airflow) | Dataplex
Security & Identity Management: Workload Identity Federation (WIF) | Cloud Interconnect | Private Service Access | OAuth Authentication | SailPoint | PingID | Identity Federation | AWS IAM
Business Intelligence & Analytics: Looker | Power BI | Superset | TIBCO Jaspersoft | OData API | Google Data Studio | Deloitte Integration | YourAPI | NGRA | Data Query
Data Governance & Cataloging: Alation Data Catalog
Self-Service & Automation: Table Creation Automation | Ad Hoc Data Upload | Configurable Ingestion Channels | Real-time Status Updates | Data Classification

Solution Architect, *Digital Commerce Platform*: One Platform, One Experience and One Store

- Led the end-to-end solution architecture, design, and implementation of a unified digital commerce platform (DCP) for Thomson Reuters, consolidating 200+ marketing sites and 33+ e-commerce platforms. This greenfield project encompassed the entire customer journey (Lead, Try, Buy, Onboard, Use, Renew) and leveraged a multi- cloud strategy (AWS, OCI, AZURE, GCP) for optimal performance and scalability.
- Led the onboarding of a strategic stack migration within 2 quarters, achieving near real-time transactions with a failure rate of less than 1% and limiting deviations from base to under 15%. Ensured 99.9% customer uptime with only 5 high-impact incidents per year, 98% proactively detected, while maintaining a Product Security rating of 'A' on PS360.
- Increase digital share of sales to 80% (6% Pure), renewals to 90% (10% Pure), and Print sales to 35%.

CloudData Ingestion & Integration: Fivetran | Informatica | AWS S3 | SFTP | Kafka | APIs | Cloud Databases | On-Prem Databases | Direct Data Extraction
Storage & Data Management: BigQuery | Snowflake | Google Cloud Platform (GCP) | AWS TR-Corporates | Data Mesh | Data Hub | Google Storage | Amazon Managed Streaming for Kafka
Data Processing & Transformation: dbt | Cloud Composer (Airflow) | Dataplex
Security & Identity Management: Workload Identity Federation (WIF) | Cloud Interconnect | Private Service Access | OAuth Authentication | SailPoint | PingID | Identity Federation | AWS IAM
Business Intelligence & Analytics: Looker | Power BI | Superset | TIBCO Jaspersoft | OData API | Google Data Studio | Deloitte Integration | YourAPI | NGRA | Data Query
Data Governance & Cataloging: Alation Data Catalog
Self-Service & Automation: Table Creation Automation | Ad Hoc Data Upload | Configurable Ingestion Channels | Real-time Status Updates | Data Classification

Solution Architect, *Customer Success Platform*: One Platform, One Experience and One Account

- Led the end-to-end solution architecture, designed, and consolidated 11+ account experience websites into a unified Customer Success Platform (CSP) on a multi-cloud architecture (AWS, GCP, Azure).
- This platform provides personalised, proactive post-purchase support across 4 value streams: Account Experience, Customer Success, Help & Answers, and Agent Experience.
- Leveraged advanced technologies like S/4HANA, AEM, serverless functions, document databases, and Postgres DB to deliver a scalable and secure solution. Increased user adoption by 25 percent points (60% to 85%) and migrated an additional 110,000 customers to the platform. Driving 20% higher customer satisfaction and a 30% adoption rate.

Solution Architect, *ChatBot / TRIVA*: One Platform, One Experience and One Chatbot

- Designed and architected TRIVA, a multi-cloud (AWS, GCP) NLP-powered chatbot platform (Kore.ai) for Thomson Reuters, streamlining customer support across three key segments (Legal, Tax & Accounting, GoSystem).
- TRIVA leverages API integration to provide 24/7, personalised assistance with order management, tax & accounting support, and common question resolution. This resulted in a 50% reduction in wait times, a 85% increase in customer satisfaction, and a 30% deflection of Tier 1 support tickets.

CAREER TRAJECTORY CONTINUED

Solution Architect, Contact Centre / PayByPhone: One Platform, One Experience and One IVRS

- Led the end-to-end architecture, design, and migration of Thomson Reuters' contact centre to Genesys Cloud, a scalable cloud solution.
- Leveraged Boomi iPaaS to integrate Genesys with Salesforce for optimised call routing and data exchange. Implemented an IVR self-service system, reducing call volume by 30% and AHT by 20%.

Solution Architect, Middleware Modernisation: One Platform and One Middleware

- Architected and implemented a greenfield API platform for Thomson Reuters (TR) on the cloud (Apigee & Boomi), consolidating 5 legacy middleware systems and enabling a 20% reduction in integration development time with Boomi's reusable components.
- Designed a scalable micro services architecture with Open API 3.0, facilitating the integration of over 650 complex workflows across Legal, Tax, and Risk Management.
- Modernisation initiative successfully reduced customer acquisition cost by 10% within one year, achieved a 4:1 return on advertising spend (ROAS) in six months, increased customer lifetime value (CLV) by 15% in one year, maintained a user satisfaction rating of 4/5, achieved a mobile-friendly score of 90/100 in three months, and increased organic search traffic by 20% in six months.

Solution Architect, Eagan Data Centre exit: Multi Cloud/ Hybrid/ Polycloud Adaption

- Spearheaded the cloud migration strategy for 35 legacy Microsoft applications, utilising a lift-and-shift approach to AWS. This resulted in a 40% reduction in infrastructure costs and a 50% improvement in system scalability.
- Led the successful migration of TR's enterprise databases from on-premise Oracle to cloud solutions (Aurora PostgreSQL, AWS DocumentDB, DynamoDB) with a robust governance framework. This initiative reduced data- related errors by 30% and boosted data quality by 25%.

Solution Architect, Centralise Identity and access Management System (CLAM)

- Led a high-performing, cross-functional team, including Security Engineers, Product Managers (6), and Program Managers (2), to manage security architecture and compliance for a portfolio of 500+ solutions with ARR of 100M+.
- Led security architecture for a portfolio of 500+ solutions, ensuring compliance with ISO 27001, NIST, and SOC 2.
- Designed and implemented security frameworks, threat models, and risk mitigation strategies.
- Developed an AI-powered Security Governance tool, enhancing policy enforcement across 80+ teams.
- Spearheaded security enhancements for authentication, reducing account takeover risks.
- Integrated DevSecOps and zero-trust principles, automating security processes and compliance checks.
- Led security awareness initiatives, reducing incidents and improving security posture.

Solution Architect, Product Recommendation Engine (PE)

- Led Data Science solutions to enhance product experience and marketing efficiency across the merchant lifecycle.
- Initiated and managed ML-based product recommendation and CV forecasting solutions, improving +10% of product CTR and activation by leading a team of data scientists and data engineers.
- Initiated and led a real-time retargeting platform *Boomerang* with omnichannel communication capability, driving +15% incremental lift of conversions with 70% TTM reduction across the user lifecycle.
- Fostered internal PM culture by organising internal innovation events and PM committee.

CloudData Ingestion & Integration: *Fivetran | Informatica | AWS S3 | SFTP | Kafka | APIs | Cloud Databases | On-Prem Databases | Direct Data Extraction*
Storage & Data Management: *BigQuery | Snowflake | Google Cloud Platform (GCP) | AWS TR-Corporates | Data Mesh | Data Hub | Google Storage | Amazon Managed Streaming for Kafka*

LSEG (Refinitiv) • London, UK.

January 2006—December 2008

*Solution Architect, **LSEG's MyAccount platform***

- Designed a custom Salesforce solution for self-service workflows (Billing and Invoices, Payments, Product Recommendations, Product explorer, FAQs, Support tickets) and information access (product data, alerts).
- Achieved a 25% sales productivity boost and 15% reduction in manual data entry with custom Salesforce implementations. 20% increase in IT project success rate and a 15% reduction in project delivery time.
- Excellent rating from 86% of customers responding to digital renewal experience survey

Solution Architecture | Cloud Computing (AWS Lambda, SageMaker, API Gateway, S3, EC2) | Web Development (AEM, HTML, CSS, JavaScript) | Programming (Python, Java, JavaScript) | Database Management (Oracle 19c, Dynamodb, PostgreSQL) | CRM & Middleware (Salesforce, Dell Boomi) | DevOps & CI/CD (Docker, Kubernetes, Jenkins, Git) | AI/ML & Analytics (SageMaker, TensorFlow, Pandas, NumPy) | Integration & APIs (REST, SOAP, GraphQL, Microservices) | Security & Compliance (IAM, Data Privacy) | Scalability & Performance (Load Balancing, Caching, High Availability) | Problem-Solving | Communication | Agile & Scrum | Leadership | Strategic Planning

Trinity College of London • London, UK.

September 2006—April 2017

*Solution Architect, **Exam Booking Platform***

- Onboarded to lead the end-to-end solution architecture, design, and digital transformation of a unified online booking platform for the UK Home Office's Secure English Language Tests (SELTs) and music exam, achieving a 25% reduction in booking processing time.

Solution Architecture | Cloud Computing (AWS Lambda, SageMaker, API Gateway, S3, EC2) | Web Development (AEM, HTML, CSS, JavaScript) | Programming (Python, Java, JavaScript) | Database Management (Oracle 19c, Dynamodb, PostgreSQL) | CRM & Middleware (Salesforce, Dell Boomi) | DevOps & CI/CD (Docker, Kubernetes, Jenkins, Git) | AI/ML & Analytics (SageMaker, TensorFlow, Pandas, NumPy) | Integration & APIs (REST, SOAP, GraphQL, Microservices) |

EARLY CAREER

- Bloomberg Inc. / Tata Consultancy Services, London, United Kingdom/USA/India** May 2008 - April 2016
Integration Architect / Senior IT Engineer
- Ricoh Japan, Xerox Inc USA, Govt of Chhattisgarh India, Bhabha Atomic Research India, LIC Aadhar India, BSE India, BSE Bangladesh, Indian Railway, DRDO Ministry of Defence India, Nepal Stock Exchange, ICICI Prudential, HDFC Life, Cisco Webex, Indian Railway, Sales tax Department New Delhi / CMC LTD, India/Japan** May 2004 - Apr 2008
Integration Architect/Senior IT Engineer/IT Engineer.

CERTIFICATES

- AI/ML:** Oracle Cloud Infrastructure 2024 **Generative AI Professional**, Oracle Cloud Infrastructure 2023 **AI Foundations Associate**, Microsoft Certified: **Azure AI Engineer Associate certification**. Oracle **AI Vector Search Professional Certification**
- AWS:** AWS Certified **Solutions Architect - Associate**, AWS Certified **Solutions Architect - Professional**
- GCP:** Google Cloud Certified **Professional Cloud Architect**, Google Cloud Certified - **Professional Cloud Security Engineer**, Google Cloud Certified - **Professional Data Engineer**
- AZURE:** Microsoft Certified: **Azure Solutions Architect Expert**, Microsoft Certified: **Cybersecurity Architect Expert**
- OCI:** Oracle Cloud Infrastructure 2021 **Certified Architect Associate**, Oracle Cloud Infrastructure 2021 **Certified Architect Professional**, Oracle Cloud Infrastructure **Security 2021 Certified Associate**, Oracle Cloud Platform **Identity and Security Management 2021 Certified Specialist**, Professional Oracle **Autonomous Database Cloud 2021 Certified Specialist**, Oracle Cloud Infrastructure **2023 Multicloud Architect Associate**.
- Integration Architect:** Dell Boomi **Professional Architect Certification**, Oracle **Certified Master, Java EE Enterprise Architect**, Solace **Certified Solutions Consultant**, Solace **Certified Event Driven Architecture Practitioner**
- The Open Group Certified:** TOGAF® **Enterprise Architecture Practitioner (TOGAF 10)**

EDUCATION

- ❖ **Master of Computer Application**, Maharsbi Dayanand University, Rohtak, India Jul 2004-Jul 2005
- ❖ **Master of Science (Computer Science)**, Maharsbi Dayanand University, Rohtak, India Jul 2000-Jul 2001
- ❖ **Diploma in Advance Computing**, ACTS, C-DAC Pune, India Jan 1999- Jul 1999
- ❖ **Post Graduate Diploma in Computer Science**, Pt. Ravishankar Shukla Uni., Raipur, India Jul 1996-Jul 1997

ACHIEVEMENTS AND AWARDS

- ★ Received a **Best Team Award** from **TCS Ltd.** consecutively for the years 2017 to 2024.
- ★ Received a **Star Team Award** from **TCS Ltd.** consecutively for the years 2017 to 2023
- ★ Received a **Special Recognition National Award** from **CMC Ltd.** for the years 2009, 2012, and 2013.
- ★ Received a **Star Of The Month Award** from **CMC Ltd.** for the years 2012 and 2013.

Interests: Travelling, Strategy games, Cricket, Swimming, and Lawn Tennis. **Languages:** English, Urdu, Hindi, and Maithali
Global business travel to North America, Europe, and Asia. Born in India, requiring sponsorship for a work visa in the UK.
